

Steiner graduates shine at Motueka High School end of year prize-giving 2012

Graduates from the Motueka Rudolf Steiner School took many honours at the recent Motueka High School junior prize giving. The COT and Trustees congratulate the students on their hard work and well deserved recognition.

MHS junior graduation system is designed to help prepare students for success at high school. Each term, students are assessed on three broad criteria; managing self, having respect, and striving to learn. Students who achieve 90% or better each term get to graduate with Distinction. Students who achieve 100% for the year are awarded Top Graduate. Awards are also given for sporting achievements, first in class for a subject, High Achiever for a subject and Meritorious for a subject. The highest award for each year level is for Top all-round student, which is judged on academic social, sporting and cultural achievements.
